

# - A HELPFUL GUIDE TO - GOOD HOUSEKEEPING

## BATHROOM

For a spotless bathroom, bleach the toilet and wipe surfaces such as the shower, sink and mirror on a daily basis.

## PLANT WATERING

Plants are a great way to add greenery to your room. Keep them lush by feeding/watering them when necessary and making sure they have sunlight.

## RUBBISH BINS

Empty your rubbish as soon as you notice it's full - just make sure all rubbish is placed properly in the bin store bins and not on the floor. Ensure bin store doors are closed behind you.

## IRONING

Iron your clothes for the week ahead and you'll thank yourself those mornings you have less time to get ready for university!

## TIDY AS YOU GO

Put clothes away as soon as you finish ironing, take your cups/plates to the kitchen and pick up your towels off the bathroom floor. Tidy as you go and cleaning up won't be such a daunting task!

## DISH WASHING

Once you're done, clean up the sink area to make tomorrow's task a little easier! Remember to replace sponges and cloths regularly.

## CLOTHES WASHING

Stay on top of your laundry with the Circuit Laundry app. Just make sure you are considerate to others by removing your washing once the cycle ends.

## FLOOR CLEANING

Mop up spills straight away to avoid slips/falls and sweep or vacuum on a regular basis to keep things shipshape.

## KITCHEN SURFACES

Wipe kitchen surfaces daily and each time after use to keep away any nasty bugs that could contaminate your food.
